INTRODUCTION

Rehabilitation for persons with disabilities (Divyangjan) is related to a range of measures from interventions to improve body function for social inclusion and integration. As per Article 26, United Nations Convention on the Rights of Persons with Disabilities (UNCRPD) defines rehabilitation as “appropriate measures, including through peer support, to enable persons with disabilities to attain and maintain their maximum independence, full physical, mental, social and vocational ability, and full inclusion and participation in all aspects of life”. It is estimated that in India, 2.21% of total population, around 2.68 corers suffer from one or other form of disability. The Constitution of India ensures equality, freedom, justice and dignity of all individuals and implicitly mandates an inclusive society for all including persons with disabilities. In the recent years, there have been vast and positive changes in the perception of the society towards persons with disabilities. It has been realized that a majority of persons with disabilities can lead a better quality of life if they have equal opportunities and effective access to rehabilitation measures. The services of Physiotherapy, Occupational Therapy, Prosthetic and Orthotic professionals along with other medical & paramedical professionals are essential at different stage to prevent, manage disability and their rehabilitation.

DISABILITY HAS BEEN BROADLY GROUPED AS:

The number of recognized disability conditions has been increased from 7 to 21 in the RPWD Act 2016.

Following are the disability conditions included in the RPWD Act 2016:

1. Blindness
2. Low-vision
3. Leprosy Cured persons
4. Hearing Impairment (deaf and hard of hearing)
5. Locomotor Disability
6. Dwarfism
7. Intellectual Disability
8. Mental Illness
9. Autism Spectrum Disorder
10. Cerebral Palsy
11. Muscular Dystrophy
12. Chronic Neurological conditions
13. Specific Learning Disabilities
14. Multiple Sclerosis
15. Speech and Language disability
16. Thalassemia
17. Hemophilia
18. Sickle Cell disease
19. Multiple Disabilities including deaf-blindness
20. Acid Attack victim
21. Parkinson's disease

Although Government, NGOs and some civil society Institutions have been providing services to the persons with disabilities since long, but these efforts have gained momentum since 1970's, when the decade was marked by a new approach to disability with the concept of "Rights for Disabled Persons". The United Nations took the lead and issued declarations relating to Rights to the Disabled Persons (1975). The 1983-92 was declared as the “Decade of the Disabled Persons”. This was followed by the “Asia and Pacific Decade of Disabled Persons” (1993-2002). The standard rules for the equalization of opportunities for persons with disabilities were adopted by the UN General Assembly in 1993.

In 1995, Indian Parliament introduced "Persons with Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Act" 1995, is adopted by all the states and union territories. The act defines the responsibilities of the central and state Governments regard to the services to the persons with disabilities. It mandates affirmative action for ensuring useful life to disabled person and refers to the need for action on prevention of disability, provision of medical and other services to minimize the impact of impairment on account of diseases & accidents etc. It also refers to rehabilitation through education, vocational training, barrier free environments, assistive aids and other interventions. In 2016, Country finally witnessed the much-awaited Rights of Persons with Disabilities (RPWD) Bill on 14th December, 2016 in the Rajya Sabha and subsequently in the Lok Sabha on 16th December, 2016. The Bill was further approved and signed by the Hon'ble President and 'notified' by the Government in its official Gazette on 28th December, 2016. Thus, RPWD Bill 2016 was 'enacted' and became a 'LAW', the Rights of Persons with Disabilities (RPWD) Act, 2016. It covers 21 categories of disabilities from the previous 7 categories under the 1995 Act, this new Act lays complete emphasis on one's rights – right to equality and opportunity, right to inherit and own property, right to home and family and reproductive rights among others. Unlike the 1995 Act, the new Act talks about accessibility - setting a two-year deadline for the government to ensure that persons with disabilities get barrier-free access to physical infrastructure and transport systems. Additionally, it will also hold the private sector accountable. This also includes educational institutions 'recognized' by the government such as privately owned universities and colleges. A path- breaking feature of the new Act is the increase in reservation in government & private jobs from 3% to 4%.

Govt. of India has established several National Institutes to train professionals/manpower in the field of rehabilitation. National Institutes are Autonomous bodies established for different types of disabilities. The following National Institutes are engaged in Human Resources Development in the field of disability, providing rehabilitation services to the persons with disabilities and Research and Development efforts:-

- (i) National Institute for Locomotor Disabilities (Divyangjan) (NILD), Kolkata.
- (ii) Swami Vivekanand National Institute of Rehabilitation Training and Research (SVNIRTAR), Cuttack.
- (iii) National Institute for Empowerment of Persons with Multiple Disabilities (NIEPMD), Chennai.
- (iv) Pt. Deendayal Upadhyaya National Institute for Persons with Physical Disabilities (PDUNIPPD), New Delhi.
- (v) Ali Yavar Jung National Institute of Speech and Hearing Disabilities (AYJNISHD), Mumbai
- (vi) National Institute for the Empowerment of Persons with Visual Disabilities (NIEPVD), Dehradun.
- (vii) National Institute for the Empowerment of Persons with Intellectual Disabilities (NIEPID), Secunderabad.
- (viii) Indian Sign Language Research & Training Centre (ISLRTC), New Delhi.
- (ix) National Institute of Mental Health and Rehabilitation (NIMHR), Sehore, Madhya Pradesh.

These Institutes are conducting training programs at Certificate, Diploma, Degree and Postgraduate levels in their respective disciplines. The Institutes also carry out research; develop models of rehabilitation service, manpower development, and clinical & therapeutic service. They also have extensive outreach programs so that services are available in a decentralized manner. Over the years, the Institutes have trained thousands of professionals who are in their careers in the Country and abroad. In addition to above, the Ministry has also established Composite Regional Centers, District Disability Rehabilitation Centre, supporting to voluntary action programs and National Program for Rehabilitation of Persons with Disabilities under state sector scheme. For further information, Website <http://disabilityaffairs.gov.in/> may be visited.

1. TRAINING PROGRAMMES

The Ministry of Social Justice and Empowerment supports manpower development in the field of rehabilitation through National Institutes, who are offering a number of courses for which All India Entrance Test is being conducted. Amongst them, some are in the area of:

- (i) Physiotherapy
- (ii) Occupational Therapy
- (iii) Prosthetics & Orthotics

1.1 PHYSIOTHERAPY

Physiotherapy is an allied health profession, which emphasizes the use of Physical agents in the management of diseases, prevention & rehabilitation of disabling conditions. Physiotherapy deals with problems particularly those associated with Neuromuscular, Musculo-skeletal and Cardio-vascular & Respiratory systems. The therapeutic methods are based essentially on manual therapy, electro therapy and use of other Physical agents.

A Physiotherapist is trained to assess, plan and provide therapeutic services to the individual with sensory and motor deficits. After successful completion of the course, a student can seek placement as a Physiotherapist in hospitals, rehabilitation centers, Physiotherapy clinics and as a faculty in the concerned subject etc. The avenues for higher studies & research are also there. The specialization in Physiotherapy in the area of Orthopaedics, Neurology, Pediatrics, Sports, Rehabilitation, Cardio respiratory Physiotherapy etc. are available. Specialized techniques in the field of manual therapy & electrotherapy etc. are coming up.

1.2 OCCUPATIONAL THERAPY

Occupational Therapy aims to provide therapeutic and functional management to the disabling medical conditions (Physical and mental) so as to enable them to perform maximum possible function independently viz. daily living activities, play, performance at the work place through sensory integration therapy, work simulators, EMG-Biofeedback, therapeutic activities, etc. In occupational therapy, modified, adaptive/assistive & supportive devices are also developed and used to make the life more independent, productive and dignified.

As an indispensable member of a medical/rehabilitation team, this discipline; one finds a wide scope in various hospitals, NGOs, Pediatrics Hospital & psychiatric centers, industrial setups, educational institutions, sports industries, homes for aged, reconstructive/plastic surgery and

leprosy rehabilitation centers etc. The community-based rehabilitation is another area where occupational therapy is being recognized as an important component. A successful candidate has job opportunities as therapist, teaching faculty, researcher in Government & NGOs, self-employment, consultant/advisor in industrial & educational institutions etc. in the Country & abroad. The avenues for higher studies in occupational therapy in the specialties like rehabilitation, Orthopedics, Hand Rehabilitation, Developmental disabilities, neurology, psychiatry, sports etc. & research are also available.

1.3 PROSTHETICS & ORTHOTICS

Prosthetics is a speciality within the medical and health care field concerned with the research and development, design, manufacture and application of prostheses (Artificial Limbs). Similarly, orthotics is a discipline concerned with orthoses. “Prosthetics and orthotics” is the umbrella term for the science, technology, education and application of prostheses and orthoses.

Prosthetics and orthotics services provide comprehensive care with preventive, assistive and rehabilitative interventions which usually involve assessment of potential users and a treatment plan, including the design, manufacture, fitting and delivery of prostheses and orthoses. Prostheses and orthoses are externally applied devices and products used to assist people with Physical impairments or functional limitations, to improve their functioning and increase their potential to live healthy, productive, independent, dignified lives.

Prostheses and orthoses have various purposes, including to improve the mobility, dexterity or functioning of the user; alleviate pain; restore cosmesis; protect joints; prevent and correct deformities; and prevent secondary impairments. After successful completion of the course, a student may get placement as a Prosthetist/ Orthotist in Rehabilitation Centers, Hospitals, Trauma Centers, Multinational companies and Manufactures, Academic Institution and Self-employment, in Government and non-government sector in the Country and abroad. The avenues for higher studies & research in the area of Prosthetics and Orthotics are enormous.

2. INSTITUTES UNDER CET-2023
