**Notes**

1. All the dates mentioned in Academic Calendar are tentative, actual dates will be communicated in accordance with particular event.
2. If sufficient number of theory or practical classes cannot be taken, the instructors may, in consultation with students, schedule of extra classes as and when required.
3. Extra classes could not be scheduled on Gazetted Holidays.
4. In addition with theory and practical classes there may be specially organised camps for practical oriented trainings, these camps may be held on Saturdays or Sundays.
5. If any student fails to secure the minimum pass marks in both the internal examinations, a supplementary exam will be taken by the respective teacher on a mutually convenient date and time.
6. The department may organise some special classes to enhance personality and soft skills of students.

**ALMANAC FOR PGDEI 2019-2020**  
**I SEMESTER (Curriculum Programmes)**

Interview	9/08/2019
Admission Date (Theory, Practical Classes Started)	13/08/2019
Mehtha Hospital- Out Posting Classes	14/10/2019
Madhuram Narayanan Centre - Out Posting Classes	21/10/2019 to 23/10/2019
Annual National Seminar	AS PER THE PLAN
Low Vision Classes in Sankara Netharalaya	9/12/2019
1st Internal Examination	11/12/2019
1st Internal Practical Examination	18/12/2019
Submission of Practical Record	08/01/2020
2nd Internal Examination	10/01/2020
2nd Internal Practical Examination	15/01/2020
Study Holidays	21/01/2020
I semester Examination Theory Practical	28/01/2020 to 06/02/2020
I semester vacation	07/02/2020 to 17/02/2020

**OTHER EVENTS AND PROGRAMMES for I sem**

Introduction and Orientation	19.08.2019 to 21.08.2019
Nutrition week	23.09.2019 to 28.09.2019
Inclusive parent training programme	3.10.2019 and 04.10.2019
Motor activity training programme (MATA)	30.10.2019 and 31.10.2019
Pre-nursery posting	11.11.2019 to 13.11.2019
Resource development week for EI	18.11.2019 to 22.11.2019
Home visit week	9.12.2019 to 13.12.2019

## **M.Phil Clinical Psychology – I year**

### **Curriculum Plan:**

#### **October:**

Orientation in the Multidisciplinary Departments of NIEPMD

#### ***Psychosocial Foundation & Psychopathology:***

Unit	Syllabus
I	Introduction: Scope of clinical psychology; overview of the profession and practice; history and growth; professional role and functions; current issues and trends; areas of specialization; ethical and legal issues; code of conduct.
X	Introduction to psychopathology: Definition; concepts of normality and abnormality; clinical criteria of abnormality; continuity (dimensional) versus discontinuity (categorical), and prototype models of psychopathology; classification and taxonomies – reliability and utility; classificatory systems, currently in use and their advantages and limitations. Approach to clinical interviewing and diagnosis; case history; mental status examination; organization and presentation of psychiatric information; diagnostic formulation.

#### ***Statistics and Research Methodology:***

Unit	Syllabus
I	Introduction: Various methods to ascertain knowledge, scientific method and its features; problems in measurement in behavioral sciences; levels of measurement of psychological variables - nominal, ordinal, interval and ratio scales; test construction - item analysis, concept and methods of establishing reliability, validity and norms.
II	Sampling: Probability and non-probability; various methods of sampling - simple random, stratified, systematic, cluster and multistage sampling; sampling and non-sampling errors and methods of minimizing these errors.

#### ***Psychiatry:***

Unit	Syllabus
I	Signs and symptoms: Disorders of consciousness, attention, motor behavior, orientation, experience of self, speech, thought, perception, emotion, and memory.
II	Psychoses: Schizophrenia, affective disorders, delusional disorders and other forms of psychotic disorders – types, clinical features, etiology and management.

#### ***Psychological Assessments:***

Unit	Syllabus
I	Case History
II	Bender Gestalt Test, Bhatia's Battery of Performance Test, Binet Test of Intelligence (Local Standardization), Raven's Progressive Matrices (all versions), Wechsler Adult Intelligence Scale – Indian adaptation (WAPIS-Ramalingaswamy's), WAIS-R
VI	Seguin Form Board Test, Malin's Intelligence Scale for Indian Children, Gessel's Developmental schedule, Gessel's Developmental Test, Developmental Screening Test, Vineland Social Maturity Scale, BASIC-MR, NIMHANS – SLD Battery

## November:

### *Psychosocial Foundation & Psychopathology:*

Unit	Syllabus
II	Mental health and illness: Mental health care – past and present; stigma and attitude towards mental illness; concept of mental health and illness; perspectives – psychodynamic, behavioral, cognitive, humanistic, existential and biological models of mental health/illness.
XI	Psychological theories: Psychodynamic; behavioral; cognitive; humanistic; interpersonal; psychosocial; and other prominent theories/models of principal clinical disorders and problems, viz. anxiety, obsessive compulsive, somatoform, dissociative, adjustment, sexual, substance use, personality, suicide, childhood and adolescence, psychotic, mood disorders, and culture-specific disorders.

### *Statistics and Research Methodology:*

Unit	Syllabus
III	Concept of probability: Probability distribution - normal, poisson, binomial; descriptive statistics - central tendency, dispersion, skewness and kurtosis.
IV	Hypothesis testing: Formulation and types; null hypothesis, alternate hypothesis, type I and type II errors, level of significance, power of the test, p-value. Concept of standard error and confidence interval.

### *Psychiatry:*

Unit	Syllabus
III	Neurotic, stress-related and somatoform disorders: types, clinical features, etiology and management.
IV	Disorders of personality and behavior: Specific personality disorders; mental & behavioral disorders due to psychoactive substance use; habit and impulse disorders; sexual disorders and dysfunctions – types, clinical features, etiology and management.

### *Psychological Assessments:*

Unit	Syllabus
II	Wechsler Memory Scale, PGI Memory Scale,
III	Rorschach Psychodiagnostics, Multiphasic Questionnaire
IV	16 personality factor questionnaire, Temperament and Character Inventory, Eyesenk's Personality Inventory, Eysenck's Personality Questionnaire, Sentence Completion Test, Thematic Apperception Test - Murray's and Uma Chowdhary's
VI	Children's Apperception Test, Draw a Person Test, Children's Personality Questionnaire

**December:*****Psychosocial Foundation & Psychopathology:***

Unit	Syllabus
III	Epidemiology: Epidemiological studies in Indian context; socio-cultural correlates of mental illness, mental health, psychological well-being and quality of life.
IV	Self and relationships: Self-concept, self-image, self-perception and self-regulations in mental health and illness; learned helplessness and attribution theories; social skill model; interpersonal and communication models of mental illness; stress diathesis model, resilience, coping and social support.
XII	Indian thoughts: Concept of mental health and illness; nosology and taxonomy of mental illness; social identity and stratification (Varnashrama Vyavastha); concept of – cognition, emotion, personality, motivation and their disorders.

***Statistics and Research Methodology:***

Unit	Syllabus
V	Tests of significance - Parametric tests: Requirements, "t" test, normal z-test, and "F" test including post-hoc tests, one-way and two-way analysis of variance, analysis of covariance, repeated measures analysis of variance, simple linear correlation and regression.
VI	Tests of significance - Non-parametric tests: Assumptions; One-sample tests (sign test, Mc Nemer test); two-sample test (Mann Whitney U test, Wilcoxon rank sum test); k-sample tests (Kruskal Wallies test, and Friedman test) and chi-square test.

***Psychiatry:***

Unit	Syllabus
V	Organic mental disorders: Dementia, delirium and other related conditions with neuralgic and systemic disorders – types, clinical features, etiology and management.
VI	Behavioral, emotional and developmental disorders of childhood and adolescence: types, clinical features, etiology and management.
VII	Mental retardation: Classification, etiology and management.

***Psychological Assessments:***

Unit	Syllabus
II	Wisconsin card sorting test
III	Object sorting test, IPDE, NEO-5 personality inventory
IV	Picture frustration test
V	Rating scales: Self-rated and observer-rated scales of different clinical conditions such as anxiety, depression, mania, OCD, phobia, panic disorder etc. (including Leyton's obsessional inventory, Y-BOCS, BDI, STAI, HADS, HARS, SANS, SAPS, PANSS, BPRS), issues related to clinical applications and recent developments.
VI	Developmental psychopathology checklist, CBCL, Clinical rating scales such as for autism, ADHD, etc
VII	LNNB, PGI-BBD, NIMHANS and other batteries of neuropsychological tests in current use.

**January:*****Psychosocial Foundation & Psychopathology:***

Unit	Syllabus
V	Family influences: Early deprivation and trauma; neglect and abuse; attachment; separation; inadequate parenting styles; marital discord and divorce; maladaptive peer relationships; communication style; family burden; emotional adaptation; expressed emotions and relapse.
VI	Societal influences: Discrimination in race, gender and ethnicity; social class and structure, poverty and unemployment; prejudice, social change and uncertainty; crime and delinquency; social tension & violence; urban stressors; torture & terrorism; culture shock; migration; religion & gender related issues with reference to India.

***Statistics and Research Methodology:***

Unit	Syllabus
VII	Experimental design: Randomization, replication, completely randomized design, randomized block design, factorial design, crossover design, single subject design, non-experimental design.
VIII	Epidemiological studies: Epidemiological studies: Rates- Prevalence and incidence; Types- Prospective and retrospective studies; Diagnostic Efficiency Statistics (sensitivity, specificity, predictive values); Risk Estimation- odds ratio and survival analysis.

***Psychiatry:***

Unit	Syllabus
VIII	Neurobiology of mental disorders: Neurobiological theories of psychosis, mood disorders, suicide, anxiety disorders, substance use disorders and other emotional and behavioral syndromes.
IX	Therapeutic approaches: Drugs, ECT, psychosurgery, psychotherapy, and behavior therapy, preventive and rehabilitative strategies – half-way home, sheltered workshop, day care, and institutionalization.

***Psychological Assessments:***

Unit	Syllabus
III	Colour form sorting test, Minnesota Multiphasic Personality Inventory, Clinical Analysis Questionnaire, Screening instruments such as GHQ, hospital anxiety/depression scale etc. to detect psychopathology
IV	Self-concept and self-esteem scales, Rottor's locus of control scale, Bell's adjustment inventory (Students' and Adults'), Subjective well-being questionnaires, QoL
VI	AMD adaptation scale for mental retardation

**February:*****Psychosocial Foundation & Psychopathology:***

Unit	Syllabus
VII	Disability: Definition and classification of disability; psychosocial models of disability; impact, needs and problems; issues related to assessment/certification of disability – areas and measures.
VIII	Rehabilitation: Approaches to rehabilitation; interventions in the rehabilitation processes; models of adaptation to disability; family and caregivers issues; rights of mentally ill; empowerment issues; support to recovery.

***Statistics and Research Methodology:***

Unit	Syllabus
IX	Multivariate analysis: Introduction, Multiple regression, logistic regression, factor analysis, cluster analysis, discriminant function analysis, path analysis, MANOVA, Canonical correlation, and Multidimensional scaling.
X	Sample size estimation: Sample size determination for estimation of mean, estimation of proportion, comparing two means and comparing two proportions.

***Psychiatry:***

Unit	Syllabus
X	Consultation-liaison psychiatry: Psychiatric consultation in general hospital; primary care setting.
XI	Special populations/Specialties: Geriatric, terminally ill, HIV/AIDS, suicidal, abused, violent and non-cooperative patients; psychiatric services in community, and following disaster/calamity.

***Psychological Assessments:***

Unit	Syllabus
VI	Raven's controlled projection test
VII	WISC-R (for visual handicapped), blind learning aptitude test and other interest and aptitude tests, Kauffman's assessment battery and such other tests/scales for physically handicapped individuals.
VIII	Halstead-Reitan battery

**March, April & May:**

External Postings – Institute of Mental Health

**June:*****Psychosocial Foundation & Psychopathology:***

Unit	Syllabus
IX	Policies and Acts: Rehabilitation Policies and Acts (Mental Health Act of 1987, National Mental Health Program 1982, the Persons with Disabilities (equal opportunities, protection of rights and full participation) Act 1995; Rehabilitation Council of India (RCI) Act of 1992, National Trust for Mental Retardation, CP and Autistic Children 1999, Juvenile Justice Act of 1986; Mental Health Care Bill 2011; ethical and forensic issues in psychiatry practice); assistance, concessions, social benefits and support from government and voluntary organizations; contemporary challenges; rehabilitation ethics and professional code of conduct.

***Statistics and Research Methodology:***

Unit	Syllabus
XI	Qualitative analysis of data: Content analysis, qualitative methods of psychosocial research.
XII	Use of computers: Use of relevant statistical package in the field of behavioral science and their limitations.

**Presentations:****October – July**

General Seminar, Journal club, Clinical Case Presentation, Movie club

**Examinations:**

Internal Examination 1	February 1 <sup>st</sup> week
Internal Examination 2	March 4 <sup>th</sup> week
Model Examination – Theory & Practical	July 4 <sup>th</sup> week
University Examination – Theory & Practical	September

**Submissions:**

April – 1 Psychodiagnostics submission

May – 1 Psychodiagnostics submission

June – 1 Psychodiagnostics submission

July – 2 Psychodiagnostics submission

August- All 5 printed Psychodiagnostics submission
